

REMARKS/ARGUMENTS

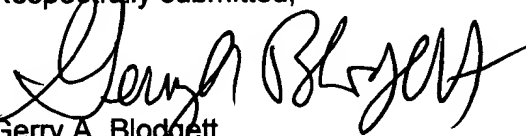

Claims 22-24 remain in the case. Claim 22-24 been added.

The specification has been amended to replace the term "voice recognition" with the term "speech recognition" where appropriate.

Claims 22-24 more specifically describe the invention in this case and more specifically distinguish the invention from the prior art. Claims 22-24 appear to be allowable.

In view of the amendments, newly submitted claims, and the above remarks, this application is believed to be in condition for a Notice of Allowance.

Respectfully submitted,

Gerry A. Blodgett
